Project programs rolling forward

Following on from the successful Otake mission which provided an opportunity for sharing ideas on problem solving, the second program in the series, “Critical Thinking: Application to Tax Administration” was conducted in January 2013 by two senior lectures from Japan. This seminar provided participants with the ability to logically analyze problems to overcome challenges. Part 2 in this series incorporated actual case studies from Cambodia with participants utilizing learnt concepts to identify solutions. This seminar was conducted over two weeks at the end of March by the same lectures in three regions.

Two Regional Circuit Trainings have been conducted since January. Also a Workshop to discuss making PR materials using Media and a Training for Tax Audit were provided by lectures from NTA and NTC, Japan. These programs were all practical and the knowledge obtained can be more effective when utilized with the basics of “Critical Thinking.”

Establishing Data Processing Center and Call Center priority for Director General

Study Visit
Data Processing Center Revenue Department of Thailand
4-5 Mar.

H.E. Kong Vibol, DG, led delegation to Thailand in preparation for GDT’s Data Processing Center (DPC) and Call Center.

Data input and verification at centralized Data centers and responding to taxpayers’ inquiries at Call centers were outsourced to cut down costs and allow flexible staff management. All office work is evaluated by Key Performance Indicators (KPIs) and reviewed annually to improve efficiency and service standards. Thailand is aiming to change “Work process, Policies, Operation and Officers’ perspectives” and improve “Quality of work.”

Highlight

- Critical Thinking is the intellectual process of logical analysis to explain issues and find solutions with accurate reasons.
- Master’s Program in Japan: English scores need preparing for June application opening.
- Taxpayer Satisfaction survey was conducted with a good cooperation of taxpayers’ response.

One staff verifies 300 returns per hour and each return is verified by 3 people.
Life time tools, “Critical Thinking”

Critical Thinking is the intellectual process of logical analysis to explain issues and find solutions with accurate reasons. Participants found that it is important to make all rules of taxation transparent to realize fair taxation and enhance taxpayers’ compliance.

Flying into cold Japan for overseas training

Key is smooth transfer from Estimated Regime for tax filing.

Participants grasped the two pillars, taxpayer service and enforcement. They visited a Tax Office in Tokyo and observed a taxpayer seminar on “how to file corporation tax return” jointly conducted with a private organization. Seminar need to be organized timely, focused on single topic with competent lecturers. Another important learning point was tax education to encourage taxpayer to comply including future taxpayer. Enforcement to tackle non-compliant taxpayers should come after providing service.
Training @ Banteay Meanchey 13-14 Feb.

Improving taxpayer service is most important to enhance taxpayers’ compliance. 53 officials in total participated from Banteay Meanchey and Odormeanchey Tax Branches. Officers’ needs were to learn Accounting and LOT to provide guidance to taxpayers.

Contents:
1. Tax Education: by IMAI
2. Tax Audit in Japan: by IMAI
3. Basic Accounting for Trainers: by Mr. Sun Votthy, Director, NTS, PAFD
4. Taxpayer Service: by Mr. Tep Chamroeun, Deputy Chief, TSTAD

“Gross Profit” is the clue of taxpayers’ risk

Training
Tax Audit Practice
11-15 Mar.

Essential know-how for tax auditors are: Accounting, Tax law and Common sense.

Participants had several group discussions in a quiz format to deepen their understanding of risk analysis. The content was very practical, “how to analyze” and “what documents need to be checked to confirm identified risks.” Prof. Ikeda and A. Prof. Orikasa from NTC led the training to mainly young officers in GDT and Khan Tax Branches. At the end, Prof. Ikeda reported to H.E Kim Sopheak about the training and made three requests; to further share knowledge within the organization, actually employ the techniques learned on the job, and tax auditors to be more flexible to tackle issues.

GDT Officers getting to grips with the Pyramid Structure

25 Mar.- 5 Apr.

Many officers now understand “how to fish”

Sessions were conducted in Phnom Penh, Siem reap and Preahsihanouk with actual cases used e.g. issues on Non-compliance and Extending tax filing period etc. Prof Ishiguro stressed, “keep focusing on the issue and never forget what the purpose is”
GDT efforts along with rising business activity increase revenues

GDT continues to get widespread coverage in the media due to year-on-year increases in revenues. This is due to efforts by GDT and tax branches, and increasing business activity. GDT achieved a 111% revenue increase in 2011 and a 125% in 2012. This trend is continuing into 2013 with revenues in February roughly 128% of the same period in 2012. The biggest reap in 2012 was Tax on immovable property (154%), followed by TOP on private enterprises (141%). The Project will continue capacity development of tax authority and institutionalize activities to enhance taxpayers’ compliance.

Trend of Major Tax Revenue

Good cooperation of taxpayers on survey responses

Taxpayer Satisfaction Survey conducted

Taxpayer satisfaction exit survey was initiated by JICA experts and 1,463 results were collected. Surveyors visited 4 provincial tax branches, Kampong Cham, Battambang, Siem Reap and Preahsihanouk between 13th and 15th March. Also the same survey was carried out at GDT, Khan Daun Penh, Khan Chamkarmon, Khan Tuol Kork tax branches from 27th to 29th March. Now they are being analyzed and we aim to publish the report in August 2013.
